

Stop Paying So Much For Homeowners Insurance!

Are you tired of being told that there are no “viable markets” that will insure your home?

Are you tired of outrageous wind deductibles on your homeowners insurance policy?

We Can Get You The Coverage You Need At A Lower Cost!

There ARE companies that will insure your home - even if it's coastal, with LOW or NO wind deductible at a reasonable cost.

We are a local insurance agency that understands the needs of our Cape property owners and we have alternatives to the fair plan and the difficult wind deductibles that have been imposed upon so many Cape home owners.
